

SAGE 2022 Manila

4th Southeast Asian Gateway Evolution Meeting
8 – 12 August 2022 Manila, Philippines

We cordially invite you to the fourth International conference on Southeast Asian Gateway Evolution (SAGE 2022) in Manila, the Philippines. This scientific meeting focuses on the origin, diversification, and conservation of Southeast Asia's megadiverse fauna and flora embedded into the context of the region's complex geology and climate history. We are looking forward to welcoming you to this multi-disciplinary meeting with contributions to biodiversity science, biogeography, palaeontology, geology, climatology and conservation.

This conference is hosted by the Ateneo de Manila University, a premier private Higher Education and Research Institution in Quezon City, Metro Manila, in collaboration with the Museum für Naturkunde Berlin and the Philippine National Museum of Natural History. The venue inside the green and safe Ateneo campus can be reached conveniently from the airports of Manila and Clark in 30 min to 2h.
